- Used AWS Cloud watch for Production monitoring and support, Create technical documents for use of API to end user using swagger V2, OpenAPI

SKILLS

Java 11   Springboot   Spring Framework   AWS   Hibernate   Java JPA   Java Web Developer   Springboot Microservices   Maven, Gradle   RESTfull Web Services   SOAP Services   JSP   MySQL Database   Amazon Web Services   Spring Batch   CRON Job Scheduling   Angular v8   Mongo/No sql DB   Kafka/SQS   Docker, K8

PERSONAL PROJECTS

Cervantes - Broadband Web Application Full Stack
- Full stack web application built using RESTfull web services in springboot and Angular for front end development

Online E-kart Web Application
- Backend web application built using RESTfull web services in springboot with MySQL Database

CERTIFICATES

Java SE 8 Certification

L&T EduTech - Java Full Stack Developer (04/2022 - 07/2022)

Springboot Framework Certification

ACHIEVEMENTS

Springboot Microservice
Handled one complete microservice from development to production.

Qualified GATE
Qualified GATE-2020 Exam in first attempt

LANGUAGES

English
Full Professional Proficiency
